

What Next After PU II?

Career guidance and counselling session for all the PUC II science students of in and around Belagavi region was organized by Shaikh

College of Engineering & Technology (SCET) on 18th November 2017. A renowned educationist D.H.Rao, Dean of Cambridge Institute of Technology, Bangalore was invited as the guest speaker for the session. The inaugural session started with the Welcome address by Dr.Mohan Vanarotti, Principal of SCET followed by the presidential remarks presented by Dr.H.G.Shekharappa, Director of SCET. Vote of thanks was proposed by Dr.K.Ravi.

Dr.Mohan Vanarotti briefly presented the overview and all the facilities provided by the college to the students of PUC II. Dr.D.H.Rao held the session by highlighting the need for over all personality development of a student. He introduced the different streams of engineering, their needs, and scope and job opportunities. He also gave an in depth explanation regarding the future technologies and the need for creating a quality engineering graduates. He added that no branch of engineering could be categorized as good or bad but only the performance of the students can be named good and bad. Hundreds of PUC II students from various colleges took part in the counselling session and got benefited.
